Why CCBHC?

- Opportunities and successes as a CCBHC
- Transformation of practice for the long term
- Philosophical shift to integrated care
- Does your vision for your clinic align with CCBHC?

SAMHSA CCBHC Expansion Grants vs. Medicaid CCBHC Demonstration

Medicaid CCBHC Demonstration 2017	SAMHSA CCBHC Expansion Grants 2020
Open to only 10 participating states	Open to organizations in ALL states
Medicaid cost-related payment rate (PPS) covers anticipated costs of delivering all CCBHC services	Medicaid PPS is not available for CCBHC grantees (except those that are also demonstration sites)
PPS rate is paid as qualifying visits occur, with no limit on number of visits or clients	Grant amount is capped at \$2 million per year; clinics should carefully project costs and client volume
States certify CCBHCs and make final decisions about required EBPs/other activities	States do not certify new CCBHCs; applicants attest to meeting CCBHC criteria in Appendix M of the FOA.

CCBHC grants can serve as a springboard for states to implement the CCBHC model through Medicaid—a potential strategy for sustainability.
