48 PART G

49 Section 1. The public health law is amended by adding a new article
50 29-J to read as follows:

51 ARTICLE 29-J
52 MEDICAL RESPITE PROGRAM
53 Section 2999-hh. Medical respite program.

1 § 2999-hh. Medical respite program. 1. Legislative findings and
2 purpose. The legislature finds that an individual who lacks access to
3 safe housing faces an increased risk of adverse health outcomes. By
4 offering medical respite programs as a lower-intensity care setting for
5 individuals who would otherwise require a hospital stay or lack a safe
6 option for discharge and recovery, medical respite programs will reduce
7 hospital inpatient admissions and lengths of stay, hospital readmis-
8 sions, and emergency room use. The legislature finds that the estab-
9 lishment of medical respite programs will protect the public interest
10 and the interests of patients.

11 2. Definitions. As used in this article, the following terms shall
12 have the following meanings, unless the context clearly otherwise
13 requires:

14 (a) "Medical respite program" means a not-for-profit corporation
15 licensed or certified pursuant to subdivision three of this section to
16 serve recipients whose prognosis or diagnosis necessitates the receipt
17 of:

18 (i) Temporary room and board; and

19 (ii) The provision or arrangement of the provision of health care and
20 support services; provided, however, that the operation of a medical
21 respite program shall be separate and distinct from any housing programs
22 offered to individuals who do not qualify as recipients.

23 (b) "Recipient" means an individual who:

24 (i) Has a qualifying health condition that requires treatment or care;

25 (ii) Does not require hospital inpatient, observation unit, or emer-
26 gency room level of care, or a medically indicated emergency department
27 or observation visit; and

28 (iii) Is experiencing homelessness or at imminent risk of homeles-
29 ness. (A) Subject to clause (B) of this subparagraph and any rules or
30 regulations promulgated pursuant to subdivision four of this section, a
31 person shall be deemed "homeless" if they are unable to secure or main-
32 tain permanent or stable housing without assistance.

33 (B) An operator of a medical respite program may establish eligibility
34 standards using a more limited definition of "homelessness" if such
35 limitation is necessary to ensure the availability of a funding source
36 that will support the medical respite program's provision of room and
37 board, and such limitations are otherwise consistent with any rules or
38 regulations promulgated pursuant to subdivision four of this section.
39 This applies to conditions that may exist in connection with:

40 (1) Public funding provided by a federal, state, or local government
41 entity; or

42 (2) Subject to the approval of the department, private funding from a
43 charitable entity or other non-governmental source.

44 3. Licensure or certification. (a) Notwithstanding any inconsistent
45 provision of law, the commissioner may license or certify a not-for-pro-
46 fit corporation as an operator of a medical respite program.

47 (b) The commissioner may promulgate rules and regulations to establish
48 procedures to review and approve applications for a license or certif-
49 ication pursuant to this article, which may be promulgated on an emer-
50 gency basis and which shall, at a minimum, specify standards for: recip-
51 ient eligibility; mandatory medical respite program services; physical
52 environment; staffing; and policies and procedures governing health and
53 safety, length of stay, referrals, discharge, and coordination of care.

54 4. Operating standards; responsibility for standards. (a) Medical
55 respite programs licensed or certified pursuant to this article shall:

56 (i) Provide recipients with temporary room and board; and

1 (ii) Provide, or arrange for the provision of, health care and support
2 services to recipients.

3 (b) Nothing contained within this article shall affect the applica-
4 tion, qualification, or requirements that may apply to an operator with
5 respect to any other licenses or operating certificates that such opera-
6 tor may hold, including, without limitation, under article twenty-eight
7 of this chapter or article seven of the social services law.

8 5. Temporary accommodation. A medical respite program shall be consid-
9 ered a form of emergency shelter or temporary shelter for purposes of
10 determining a recipient's eligibility for housing programs or benefits
11 administered by the state or by a local social services district,
12 including programs or benefits that support access to accommodations of
13 a temporary, transitional, or permanent nature.

14 6. Inspections and compliance. The commissioner shall have the power
15 to inquire into the operation of any licensed or certified medical
16 respite program and to conduct periodic inspections of facilities with
17 respect to the fitness and adequacy of the premises, equipment, person-
18 nel, rules and by-laws, standards of medical care and services, system
19 of accounts, records, and the adequacy of financial resources and sourc-
20 es of future revenues.

21 7. Suspension or revocation of license or certification. (a) A license

38 report on its activities to the legislature on or before December thir-

1 reported or is known to the inter-office coordinating council or the
2 offices of the department; and coordination of planning, standards or
3 services for persons with multiple disabilities between the inter-office

10 and by article forty-one of this chapter.

11 (d) [~~1-~~] (1). The commissioner of mental health, addiction, and well-
12 ness shall evaluate the type and level of care required by patients in
13 the adult psychiatric centers authorized by section 7.17 of this chapter
14 and develop appropriate comprehensive requirements for the staffing of
15 inpatient wards. These requirements should reflect measurable need for
16 administrative and direct care staff including physicians, nurses and
17 other clinical staff, direct and related support and other support
18 staff, established on the basis of sound clinical judgment. The staffing
19 requirements shall include but not be limited to the following: (i) the
20 level of care based on patient needs, including on ward activities, (ii)
21 the number of admissions, (iii) the geographic location of each facili-
22 ty, (iv) the physical layout of the campus, and (v) the physical design
23 of patient care wards.

24 [~~2-~~] (2). Such commissioner, in developing the requirements, shall
25 provide for adequate ward coverage on all shifts taking into account the
26 number of individuals expected to be off the ward due to sick leave,
27 workers' compensation, mandated training and all other off ward leaves.

28 [~~3-~~] (3). The staffing requirements shall be designed to reflect the
29 legitimate needs of facilities so as to ensure full accreditation and
30 certification by appropriate regulatory bodies. The requirements shall
31 reflect appropriate industry standards. The staffing requirements shall
32 be fully measurable.

33 [~~4-~~] (4). The commissioner of mental health, addiction, and wellness

35 the development of the staffing requirements on October first, [~~nineteen~~
36 ~~hundred eighty-eight~~] two thousand twenty-one and again on April first,

47 offices to have a clause requiring notice be provided to all current and
48 new employees of such agencies and providers stating that all instances
49 of abuse shall be investigated pursuant to this chapter, and, if an
50 employee leaves employment prior to the conclusion of a pending abuse
51 investigation, the investigation shall continue. Nothing in this section
52 shall be deemed to diminish the rights, privileges, or remedies of any
53 employee under any other law or regulation or under any collective
54 bargaining agreement or employment contract.

55 § 5. Section 7.01 of the mental hygiene law, as added by chapter 978
56 of the laws of 1977, is amended to read as follows:

1 § 7.01 Declaration of policy.

2 The state of New York and its local governments have a responsibility
3 for the prevention and early detection of mental illness and for the
4 comprehensively planned care, treatment and rehabilitation of their
5 mentally ill citizens.

6 Therefore, it shall be the policy of the state to conduct research and
7 to develop programs which further prevention and early detection of
8 mental illness; to develop a comprehensive, integrated system of treat-
9 ment and rehabilitative services for the mentally ill. Such a system
10 should include, whenever possible, the provision of necessary treatment
11 services to people in their home communities; it should assure the
12 adequacy and appropriateness of residential arrangements for people in
13 need of service; and it should rely upon improved programs of institu-
14 tional care only when necessary and appropriate. Further, such a system
15 should recognize the important therapeutic roles of all disciplines
16 which may contribute to the care or treatment of the mentally ill, such
17 as psychology, social work, psychiatric nursing, special education and
18 other disciplines in the field of mental illness, as well as psychiatry
19 and should establish accountability for implementation of the policies
20 of the state with regard to the care and rehabilitation of the mentally
21 ill.

22 To facilitate the implementation of these policies and to further
23 advance the interests of the mentally ill and their families, a new
24 autonomous agency to be known as the office of mental health, addiction,
25 and wellness has been established by this article. The office and its
26 commissioner shall plan and work with local governments, voluntary agen-
27 cies and all providers and consumers of mental health services in order
28 to develop an effective, integrated, comprehensive system for the deliv-
29 ery of all services to the mentally ill and to create financing proce-
30 dures and mechanisms to support such a system of services to ensure that
31 mentally ill persons in need of services receive appropriate care,
32 treatment and rehabilitation close to their families and communities. In
33 carrying out these responsibilities, the office and its commissioner
34 shall make full use of existing services in the community including
35 those provided by voluntary organizations.

36 § 6. Section 19.01 of the mental hygiene law, as added by chapter 223
37 of the laws of 1992, is amended to read as follows:

38 § 19.01 Declaration of policy.

39 The legislature declares the following:

40 Alcoholism, substance abuse and chemical dependence pose major health
41 and social problems for individuals and their families when left
42 untreated, including family devastation, homelessness, and unemployment.
43 It has been proven that successful prevention and treatment can dramati-
44 cally reduce costs to the health care, criminal justice and social
45 welfare systems.

46 The tragic, cumulative and often fatal consequences of alcoholism and
47 substance abuse are, however, preventable and treatable disabilities
48 that require a coordinated and multi-faceted network of services.

49 The legislature recognizes locally planned and implemented prevention
50 as a primary means to avert the onset of alcoholism and substance abuse.
51 It is the policy of the state to promote comprehensive, age appropriate
52 education for children and youth and stimulate public awareness of the
53 risks associated with alcoholism and substance abuse. Further, the
54 legislature acknowledges the need for a coordinated state policy for the
55 establishment of prevention and treatment programs designed to address
56 the problems of chemical dependency among youth, including prevention

1 and intervention efforts in school and community-based programs designed
2 to identify and refer high risk youth in need of chemical dependency
3 services.

4 Substantial benefits can be gained through alcoholism and substance
5 abuse treatment for both addicted individuals and their families. Posi-
6 tive treatment outcomes that may be generated through a complete contin-
7 uum of care offer a cost effective and comprehensive approach to reha-
8 bilitating such individuals. The primary goals of the rehabilitation and
9 recovery process are to restore social, family, lifestyle, vocational
10 and economic supports by stabilizing an individual's physical and
11 psychological functioning. The legislature recognizes the importance of
12 varying treatment approaches and levels of care designed to meet each
13 client's needs. Relapse prevention and aftercare are two primary compo-
14 nents of treatment that serve to promote and maintain recovery.

15 The legislature recognizes that the distinct treatment needs of
16 special populations, including women and women with children, persons
17 with HIV infection, persons diagnosed with mental illness, persons who
18 abuse chemicals, the homeless and veterans with posttraumatic stress
19 disorder, merit particular attention. It is the intent of the legisla-
20 ture to promote effective interventions for such populations in need of
21 particular attention. The legislature also recognizes the importance of
22 family support for individuals in alcohol or substance abuse treatment
23 and recovery. Such family participation can provide lasting support to
24 the recovering individual to prevent relapse and maintain recovery. The
25 intergenerational cycle of chemical dependency within families can be
26 intercepted through appropriate interventions.

27 The state of New York and its local governments have a responsibility
28 in coordinating the delivery of alcoholism and substance abuse services,
29 through the entire network of service providers. To accomplish these
30 objectives, the legislature declares that the establishment of a single,
31 unified office of [~~alcoholism and substance abuse services~~] mental
32 health, addiction, and wellness will provide an integrated framework to
33 plan, oversee and regulate the state's prevention and treatment network.
34 In recognition of the growing trends and incidence of chemical dependen-
35 cy, this consolidation allows the state to respond to the changing
36 profile of chemical dependency. The legislature recognizes that some
37 distinctions exist between the alcoholism and substance abuse field and
38 the mental health field and where appropriate, those distinctions may be
39 preserved. Accordingly, it is the intent of the state to establish one
40 office of [~~alcoholism and substance abuse services~~] mental health,
41 addiction, and wellness in furtherance of a comprehensive service deliv-
42 ery system.

43 § 7. Upon or prior to January 1, 2022, the governor may nominate an
44 individual to serve as commissioner of the office of mental health,
45 addiction, and wellness. If such individual is confirmed by the senate
46 prior to January 1, 2022, they shall become the commissioner of the
47 office of mental health, addiction, and wellness. The governor may
48 designate a person to exercise the powers of the commissioner of the
49 office of mental health, addiction, and wellness on an acting basis,
50 until confirmation of a nominee by the senate, who is hereby authorized
51 to take such actions as are necessary and proper to implement the order-
52 ly transition of the functions, powers as duties as herein provided,
53 including the preparation for a budget request for the office as estab-
54 lished by this act.

55 § 8. Upon the transfer pursuant to this act of the functions and
56 powers possessed by and all of the obligations and duties of the office

1 of mental health and the office of addiction services and supports as
2 established pursuant to the mental hygiene law and other laws, to the
3 office of mental health, addiction, and wellness as prescribed by this
4 act, provision shall be made for the transfer of all employees from the
5 office of mental health and the office of addiction services and
6 supports into the office of mental health, addiction, and wellness.
7 Employees so transferred shall be transferred without further examina-
8 tion or qualification to the same or similar titles and shall remain in
9 the same collective bargaining units and shall retain their respective
10 civil service classifications, status, and rights pursuant to their
11 collective bargaining units and collective bargaining agreements.

12 § 9. Notwithstanding any contrary provision of law, on or before Octo-
13 ber 1, 2021 and annually thereafter, the office of mental health,
14 addiction, and wellness, in consultation with the department of health,
15 shall issue a report, and post such report on their public website,
16 detailing the office's expenditures for mental health and addiction
17 services and supports, including total Medicaid spending directly by the
18 state to licensed or designated providers and payments to managed care
19 providers pursuant to section 364-j of the social services law. The
20 office of mental health, addiction, and wellness shall examine reports
21 produced pursuant to this section and may make recommendations to the
22 governor and the legislature regarding appropriations for mental health
23 and addiction services and supports or other provisions of law which may
24 be necessary to effectively implement the creation and continued opera-
25 tion of the office.

26 § 9-a. Any financial saving realized from the creation of the office
27 of mental health, addiction, and wellness shall be reinvested in the
28 services and supports funded by such office.

29 § 10. Severability. If any clause, sentence, paragraph, section or
30 part of this act shall be adjudged by any court of competent jurisdic-
31 tion to be invalid, such judgment shall not affect, impair or invalidate
32 the remainder thereof, but shall be confined in its operation to the
33 clause, sentence, paragraph, section or part thereof directly involved
34 in the controversy in which such judgment shall have been rendered.

35 § 11. This act shall take effect immediately. Effective immediately,
36 the office of mental health and the office of addiction services and
37 supports are authorized to promulgate the addition, amendment and/or
38 repeal of any rule or regulation or engage in any work necessary for the
39 implementation of this act on its effective date authorized to be made
40 and completed on or before such effective date.

41
