

Identifying HARP Enrollees Who are Dually Eligible for Medicaid and Medicare

1. Providers should utilize ePACES to identify/verify member eligibility and enrollment.
2. In ePACES providers can check the Plan code to identify which Plan type the member is enrolled in. Link to Plan codes can be found here: [INFORMATION FOR ALL PROVIDERS MANAGED CARE INFORMATION \(emedny.org\)](#)
3. Providers can check the Medicaid Exception section to see if the member has an H code to confirm eligibility for CORE services.
4. Medicare enrollment information can also be access in the “Medicare Information” section and the “Third Party Insurance” section
5. Providers can cross-check the Medicare group number in ePACES to the IB-Dual Plans listed on this page in the Plan Benefit Package (PBP) # column: [Dual Eligible New Yorkers \(ny.gov\)](#)
