Dear Colleagues,

Thank you for the questions and feedback that you've provided on the **Capacity Monitoring Survey in the Mental Health Provider Directory (MHPD)** – this will be helpful to clarify definitions and inform refinement of the survey application and training.

We are delaying the survey launch until later this year to allow time for additional discussion and preparation. We have collected a number of questions and suggestions from the field and will review during the scheduled information sessions in August and September.

If you have not already done so, please register for one of the available information and feedback sessions below. *Note: Technical training sessions will be scheduled closer to survey launch later this year.*
