Provider Name

RE: Funding Opportunity Notice

Dear Contact Person,

Your organization has been identified as eligible to receive additional funding through the Opioid Stewardship fund to support treatment affordability for uninsured and underinsured individuals in Part 816, 818 and 820 programs for up to two years. The *preliminary* amount in Year 1 is XXX . The amount was calculated by analyzing uncompensated care expenses using 2022 and 2023 data from your filed Consolidated Fiscal Report (CFR) for the identified programs. Funds should be used in support of services offered by your agency. The additional funds will be budgeted to a single PRU. If you operate more than one 816, 818, or 820 program, you will have the opportunity to select which program or programs the funding should be added to. Providers may use their discretion in moving the funds between appropriate PRUs within your provider organization, either by submitting budget changes or as part of the claiming and reconciliation process. This amount may be allocated across any other 816, 818 or 820 treatment program PRUs associated with the XXX provider number.

Please be aware that if your 816, 818 or 820 program is not currently funded with OASAS State aid or you choose to move this funding to a non-funded program, you will be required to budget and claim your clinic for the duration of this award in order to receive the funds. In accordance with current year-end funding reconciliation rules, if the identified program reports a surplus in the CFR, and the provider has other State Aid funded programs within a single county SAFA or contract, the surplus of the 816, 818 or 820 program will be shifted to address operational deficits of the other funded programs. If the designated program reports a surplus and is the only program within a single county SAFA or contract, State Aid will be recovered.

Please complete the following survey form: <https://forms.office.com/g/uGmH94YMNP> to indicate your interest in moving forward with this funding. A failure to respond by **COB on Friday, October 3, 2025**, will be considered a passive declination of funding. There will not be an opportunity to opt into the funding opportunity at a later date. Interested organizations will receive an official award letter with a final amount and further instructions for next steps to initiate the receipt of funding.

Thank you for your commitment to serving New Yorkers in need.
